California Medi-Cal Dental Program: Dental Periodicity Schedule for Children

Federal law governing the provision of dental services to children under Medicaid's Early and Periodic Screening, Diagnosis and Treatment program requires that dental services be provided in accordance with a dental periodicity schedule. This schedule must recommend treatment intervals that meet reasonable standards of dental practice, as determined by the State after consultation with recognized dental organizations involved in child health care, and at such other intervals that are medically necessary to determine the existence of a suspected illness or condition. The Dental Periodicity Schedule provided below reflects the ages and intervals at which a child should receive specified dental services. The periodicity schedule is not an indication of when a referral should take place.

Following consultation with the California Dental Association, California Society of Pediatric Dentistry and the American Academy of Pediatric Dentistry (AAPD), the Medi-Cal Dental program elected in March 2010 to use a Periodicity Schedule recommended by the AAPD. The schedule was recently updated by the AAPD and is attached to this bulletin (reproduced with permission). The updated rationale supporting the procedures recommended in the Periodicity Schedule can be found on the AAPD website http://www.aapd.org/media/Policies_Guidelines/G_Periodicity.pdf. Although the Medi-Cal Dental program supports the intervals recommended in the AAPD Periodicity Schedule, please be aware that the Medi-Cal Dental program Manual of Criteria governs policy with respect to which procedures are benefits and the frequency at which they are allowable.

Outreach Mailing for Non-Utilizing Beneficiaries under the Age of Four

Beginning January 2015, Denti-Cal will launch a campaign to engage over 550,000 non-utilizing beneficiaries under the age of four. The campaign combines mailings and automated call reminders encouraging the parents/guardians of Denti-Cal beneficiaries, under the age of four, to schedule an appointment with a dentist enrolled in the Denti-Cal program. During the campaign, which is slated to last six weeks, providers might see an increase in appointment requests from beneficiaries. The Medi-Cal Dental Program would like to remind our providers to review the revised dental periodicity schedule provided in this publication as it contains recommendations for dental procedures that young children should receive and the age at which young children should receive those dental procedures.

To maximize the effectiveness of this campaign, Denti-Cal encourages providers to take advantage of the free referral service for accepting Denti-Cal beneficiaries. If you are a provider interested in this service, or need to update the information currently on file, please fill out the newly updated [Medi-Cal Dental Patient Referral Service Form](#). Complete the form in one of the following ways:
